"PHARMACOLOGY HAVANA 2019" **In the 500 Anniversary of Havana Foundation**

Cuban Society of Pharmacology

Invitation

On behalf of the Cuban Society of Pharmacology, coinciding with the celebration of the 500th anniversary of the founding of Havana, declared by UNESCO, World Heritage City, you are invited to attend the 6th International Congress "Pharmacology Havana 2019"; event in which a set of important Congresses, workshops and symposiums will be developed simultaneously, among them the 3rd Ibero-American Pharmacometric Congress, 6th International Workshop of Clinical Trials and 13th National Congress on Pharmacology, all related to the broad field of action of pharmacological sciences and related scientific disciplines, which will take place from October 27 to 31, 2019, at the Tryp Habana Libre Hotel.

The meeting will be focused on new drug entities and major therapeutic breakthroughs and will be directed to professionals interested in rational drug therapy, and to those working on basic and clinical pharmacology, drug development and drug safety reporting. Symposia and Workshops will be combining basic and applied pharmacology and therapeutic. The scientific program has been organized to comprise main lectures, symposia, medical alert sessions, plenary sessions on new therapies, and some guided-poster sessions, all divided into different events that will be developed simultaneously.

A commercial exhibition will take place as an important part of the meeting. The Venue of the Congress will be the Tryp Habana Libre Hotel, one of the most beautiful hotels in Havana.

During your stay in Cuba you are encouraged to plan visits to many different interesting places in Havana and in the provinces closer to the main city (Pinar del Río, Matanzas, Cienfuegos, and Villa Clara).

We are inviting you to discover and enjoy the geographical, tourist, historical and cultural treasures of Cuba, in a particularly interesting scientific atmosphere, brought up by the impressive development achieved by pharmacological sciences and other scientific disciplines related to them in Latin-American countries and in the largest island of the Caribbean.

In our beautiful island, presented nowadays to the world as a reality of the highly developed Health System, where conditions have accomplished the commitment of Health for All, you will also find the contagious hospitality and the happiness of our people. **We hope to see you in Havana in October 2019..... for Pharmacology Havana 2019!!.**

A handwritten signature in black ink, appearing to read "René", with a stylized flourish at the end.

Dr. René Delgado Hernández, Ph.D.
